*Pioneering Orthopaedics Since 1919*

---

• Hand & Wrist • Shoulder & Elbow • Spine • Hip & Knee • Foot & Ankle •  
• Sports Medicine • General Orthopaedics • Total Joint Replacement •

## Driving

- You will not be able to drive while you are taking narcotic medications
- You will not be able to drive without your physicians recommendation (typically 3-5 weeks after surgery) – this will be discussed at your 2 week post-op appointment
- You must be able to apply the brake quickly, easily and with minimal pain
